OUR SACRAMENT OF FLOWERS.

Dr. Domer Lectures Upon the Significance

of Decoration Days. At St. Paul's English Lutheran church last evening the Rev. S. Domer lectured upon "Our Sacrament of Flowers." He read a quotation from an old manuscript, from one of his speeches delivered twenty-three years ago in the midst of the civil war, and comago in the most of the civil war, and com-pared it with a quotation from the Thanks-giving sermon delivered by him on the jubiles day in 1885, appointed by the presi-dent for giving thanks that the war was over.

"The effort to keep those years, and the actors in those scenes, ever at hand, and the achievements of the heroic dead from fading achievements of the heroic dead from fading out of memory, we find our Decorations days, so appropriately inaugurated soon after the war was ended, and now so generally honored from year to year. It is a sarrament of flowers in which the new national life continually comes into tender and earnest review, as the cost of that life is reheared in the sacrifices which were made, and the blood that was shed, in order that it might continue and that the generations to whom the rich inheritance should come might not forget the cost at which they were so richly endowed."

dowed."

This floral sacrament, is it not in most intimate relation to the peace jubilee of nineteen years ago? Is it not a sort of contenuity of that jubilee? Such had been the stress and strain of heavy war when our strife closes, that, like coming out of a long and dreary winter into the bleom and beauty of springtime, the people of this country never before so exultingly realized the benedictions of peace, and, therefore, put special emphasis on the appointment and season of rejuicing which had been brought in through the awful winter of preceding war. The srand which had been brought in through the awful winter of preceding war. The grand celebrations which ensued, and which are perpetuated in the annual tribute of flowers, had their best and sweetest inspiration, not so had their best and sweetest inspiration, not so much in the rehearsal and recollection of battles fought, marches made, campaigns organized and executed, and countless re-verses and successes in those years of strife and final victory at last for the national cause, but the culminating joy was in this. "This cruel war is over." A time of peace has come, and the changer of arms is hushed on every plain and mountain top. on every plain and mountain top.

on every plain and mountain top.

Referring to the continued peace bought at such great sacrifice Dr. Demer said: "In vain all the agony and blood and treasure of those awful years if the nation defaults in her returns of nationhood; in vain all our flowers, all these pageants of music, poetry, and oratory, if no commonsurate purity, liberty, prosperity, charity, power, and national patriotism shall follow. So the eternal behest is upon us with all these recurring days of jubilee, to make glorious answer to these questions of cost, in a better nationality, a purer patriotism, in an ever-increasing completeness to answer the ends of highest government of the people, by the people, and for the people."

the people."

If we can thus shape the thought, and so embody in these floral days, the correspondence of cost and commodity, we shall have these seasons full of immortality—they will impart lessons, and give forth influences which shall bloss with increasing glory the advancing maturity of popular empire on these shores; if not, then our sacrament of flowers will become meaningless, or a mockery, which we shall ultimately realize in the doom of national decay and death; if not, then, verily, our worthies have died in vain; those rivers of blood have been of no value, and our floral rejoteings can mean but little beyond the sympathy of a tear for the unproductive deaths. If not, then had those soldiers better been permitted to stay at home, and with their own friends and families, at least to sleep in quiet in the common cemeteries of the land.

In closing Dr. Domer spoke eloquently of the fraternal manner in which soldiers of both armies united last Friday in honoring the memory of their fallen comrades. flowers will become meaningless, or a mock-

The Stengerbund Concert.

The eacred concert given by the Senger-bund last evening at Abner's hall in honor of Mrs. D. Merrell was very largely attended. Among the participants were the full chorus of the Washington Sengerbund, the ladies' chorus, Miss Annie Dieterich, Mesars. E. Mori and F. Knoop, and Professor H. Donch's full cruhestra. The most beautiful thing of the evening was the beautiful rendition of the "Inflamatus." from Rossini's "Stabat Mater" executed by about fifty voices and the full cruhestra.
